

**Updated: September 25, 2009**

With a total of 121 acres in the sewer district on 142<sup>nd</sup>, our township board is trying to push this sewer project through at the expense of over 75% of land volume owners who opposed this sewer project for only these few "Good Ole Boys". Here are all those who signed to volunteer for the sewer. **Notice all the "Good Ole Boys" who are well connected to the political machine here in Dorr. \*Also notice the "Good Ole Boys" who are members of the DDA (in red) [CLICK HERE FOR THE FULL MEMBERSHIP OF DDA BOARD MEMBERS NAMES AND CONNECTIONS](#)** who voted to borrow the money to push this \$1.6 million dollar project through after the people petitioned it twice and stopped it. Only 23% of the land volume owners volunteered for the sewer, yet the townboard seems to work for these few? Whats with Democracy? We have lost that in Dorr it seems! **28.88 acres represents only 23% of the total land volume in this sewer project! Why is this board pushing this having only 23% of land owners who want this? Because they work for and are in bed with the "Good Ole Boys" listed below.** Help us stop them before they come into Rancho and Litchfield where we petitioned them and won that petition last year. If we don't stop this now, you could be the next victim down the road. We thought we were done in downtown Dorr last year too, but this board just redrew the district and started all over again even after we won with petitions and told them NO SEWER! They just don't listen.

Total of 121 acres in the total sewer district. Those who are <b>FOR</b> the sewer have only 28.88 acres? Democracy? NO!			<b>28.88</b>	<b>No Majority!</b>
<b>Now that Trinity withdrew, those "FOR" the sewer have only 28.88 acres! 23% Stop this NOW!</b>				

[CLICK HERE TO PRINT THIS PDF SPREADSHEET](#) to show your neighbors, friends and family so they can see who this townboard works for instead of working for the majority of hard working citizens!

### **Updated September 25, 2009**

This list shows (as of Sept. 25, 2009, verified from the township offices) 33 parcels with only 28.88 acres of land who want this multi million dollar sewer, compared to 44 parcels who OPPOSE this sewer or have not volunteered who own 92 acres, yet the board works so very diligently to work for the "Good Ole Boys?" This is NOT RIGHT and we the people need to once again take back our township government from those who work for the very few, at the expense of the many. All Public improvements are determined by land volume, not the number of people, this is how the Michigan legislature wrote the law. Even if it was by the number of people, those who have opposed this, have more than those who want it, so this project should never move ahead as written in the Public Improvement Act. But because the town board got a high paid lawyer to call this project "voluntary" they worked a loop hole into this Public Improvement Act to get around the intent of this Act. This town board are in bed with the "Good Ole Boys" and should be removed from office, or your neighborhood could be the next victim of this deceptive board.

Tammy Vanhaisma told the DDA board they have almost 50%. She is such a deceiver! She said this on September 9th, 2009 at the DDA board meeting. I have it in her own words on video. Video clip on

file.

**Update:** On September 25, 2009 Patty Senneker and I went up to the townhall to get all these special voluntary agreements that are signed and on file with the township. We we received these under the Freedom of information from Jane Rens. All the township has at this time are only 28.88 acres out of a total of 121 total acreage in the entire sewer district. That is 23% of the total land volume that is in the whole district, yet still again, this townboard is working for those few special people listed on the table who want this sewer project to go forward. We have a township government that works for their family and friends, inspite of the majority of citizens who have said NO, twice on this expensive sewer project in the last 21 months!
